

CHAPTER XX. PARABOLIC AND DISH ANTENNAS

ARTICLE 1. PARABOLIC AND DISH ANTENNAS

ARTICLE 1. PARABOLIC AND DISH ANTENNAS

- 20-101 DEFINITION. As used herein parabolic or dish type antenna means any circular or similar dish shape receiving antenna communications or for receiving television signals from a satellite.
- 20-102 PARABOLIC OR DISH ANTENNAS PROHIBITED; EXCEPTIONS. Except as provided in this Article, no parabolic or dish type antennas shall be erected, constructed, altered or maintained on any lot within the City of Washington.
- 20-103 REQUIREMENTS. All parabolic or dish type antennas located outside of a building shall meet the following requirements:
- (a) Each residential lot may not contain more than one parabolic or dish type antenna;
 - (b) The minimum setback from all property lines shall be eight (8) feet;
 - (c) No antenna shall be located in a front or side yard.
- 20-104 CERTIFICATION. No parabolic or dish type antenna shall be made operational until the City Superintendent or his designee shall certify in writing that both construction plans and final construction of the antenna meet the requirements of this Article.
- 20-105 PENALTIES. Any violations of this Article shall be deemed to be a misdemeanor and upon conviction for each and every offense be sentenced to pay a fine of not more than one hundred dollars (\$100.00). Each day's continued violation of this Article, after written notice thereof, shall constitute a separate violation. In the event any section or provisions of this Article or any portion thereof, any paragraph, sentence or word, be declared by a court of competent jurisdiction to be invalid, such decision shall not affect the validity of the remainder of this Article, other than the part declared to be invalid.
